Description

The Akyga® AK-SC-E18 adapter is an indispensable solution for owners of electric cars equipped with a CHAdeMO connector that have been imported from outside Europe. **The CHAdeMO adapter** allows you to charge electric vehicles at European DC charging stations equipped with **CCS2 connectors**.

Ideal for any Electric Vehicle with CHAdeMO

The CHAdeMO / CCS type 2 adapter is dedicated to owners of cars imported from the United States or Asia. The DC adapter will allow you to charge your vehicle with direct current. It is an indispensable accessory for every owner of a car with a CHAdeMO socket who wants to take advantage of fast and efficient CCS2 charging.

Simple and Fast Charging in Europe

The adapter from CCS2 to CHAdeMO allows electric vehicles to be charged with direct current (DC) of **1000 V** and up to **250 A**. With it, users can quickly and seamlessly charge their cars at charging stations that support the CCS2 standard.

Charge Quickly, Safely, and Anywhere!

The Akyga® AK-SC-E18 electric car charging adapter is an indispensable accessory for every owner of an electric vehicle with a CHAdeMO connector, enabling convenient use of European charging stations. The correct charging process is ensured by a built-in **control system** powered by a Li-Ion 18650 battery, with the option to charge via a USB-C port. This guarantees reliable and stable operation. Get the freedom and security of charging your car wherever you are!
