- Insulated Kraftform Comfort VDE blades for safe working up to 1,000 volts
- Multi-component Kraftform handle for fast and low-fatigue working
- Handle markings simplify finding and sorting of tools
- Hexagonal anti-roll feature against rolling away
- The Wera Black Point tip offers an exact fit and optimum corrosion protection

High quality Kraftform Comfort VDE screwdriver. Multi-component Kraftform handle for fast and low-fatigue working. The Wera Black Point tip and a complex hardening process ensure a long service life of the tip, enhanced corrosion protection and an exact fit. Individual testing in a water bath at 10,000 volts so as to ensure safe working at the permitted voltage of 1,000 volts. The hexagonal anti-roll feature prevents any bothersome rolling away at the workplace. Handle markings for simplified finding and sorting of the tool.

Kraftform Comfort VDE

Individually tested

The ergonomic introduction to convenient screwdriving. Handle with Kraftform geometry and blade made from power bit material with Black Point tip for precise fit – and they are even VDE-tested, too.

The individual testing at 10,000 volts, in accordance with IEC 60900, ensures safe working with loads up to 1,000 volts.

Kraftform Comfort Handle

The multi-component Kraftform handle for quick and low-exertion working.

Non-roll feature

The hexagonal non-roll feature prevents any rolling away at the workplace.

Identification marking

The screw symbol and tip size identification markings on the handle make it easier to find the right screwdriver in the tool case, or at the workplace.

Wera Black Point tip

The Wera Black Point tip and a refined hardening process ensure long service life of the tip, improved corrosion protection and an exact fit.
