

BETA C5 - 2105

Technical fabric tool rucksack,
empty

Features

Resistance, practicality and comfort: the ideal rucksack to organize and transport your tools with ease.

ROBUSTNESS AND DURABILITY

Made of high-strength technical fabric, it withstands wear, tear and heavy loads thanks to reinforced seams and durable materials.

MAXIMUM COMFORT

Ergonomic padded back, comfortable handle and adjustable shoulder straps, it is designed to reduce effort and ensure comfort even when fully loaded.

ORGANIZATION AND CAPACITY

The removable tool panel and internal and external pockets ensure quick and precise access to tools and accessories.

WATERPROOF BASE

The rigid, waterproof base isolates the contents from moisture and stabilizes the rucksack even on uneven or wet surfaces.

MAXIMUM EFFICIENCY

Large pockets, a removable internal panel and accessory compartments ensure effective and modular organization.

STABILITY AND COMFORT

Ergonomic back, adjustable shoulder straps and double chest strap for a secure and comfortable fit in every situation.
