

Power cable

Model: **AK-PC-05S**

Product code	AK-PC-05S
Product type	Power cable
Series	Copper
Responsible Entity	Akyga Europe Sp. z o.o., 52-200 Suchy Dwór, Wrocławska 1c, Polska/Poland, contact@akyga.com
Output voltage	250 V
Output amperage	10 A
Ground wire	Yes
Cable length	5 m
The cable plug #1	Hybrid standard C/E/F (CEE 7/7)
The cable plug #2	IEC C13
Cable material	Copper
Wire gauge	3x 1.5 mm ²
Product color	Black
Product size (L x W x H)	280 x 90 x 70 mm
Net weight	619 g
CE compatibility	Yes
FCC compatibility	No
RoHS compatibility	Yes
REACH compatibility	Yes
EAN code	5906708750597
Warranty	24 months

Description

Akyga® AK-PC-05S is a robust **CEE 7/7 / IEC C13 PC power cable**, which stands out with its increased length of 5 metres, ensuring maximum flexibility when installing computer and office equipment. It is an excellent solution in situations where the mains socket is located further away from the workstation or multimedia set. The cable is suitable for use in offices, studios, as well as in home and server rooms.

Copper IEC C13 Power Cable

The **IEC C13 power cable** is equipped with **three 1.5 mm² copper wires**, which guarantee excellent conductivity and resistance to overheating. The use of copper ensures stable voltage and minimal energy loss, even during prolonged operation of high-power devices. The cable is ideal for powering computers, monitors, UPS power supplies, printers and game consoles.

5-Metre Length - Comfort and Versatility

With a **length of 5 m**, the AK-PC-05S power cable allows for convenient placement of equipment without the need for extension cords. It helps keep workspaces neat and organised, making it easy to route power safely and discreetly, even to hard-to-reach areas. This makes it the ideal solution wherever flexibility and tidy cable management are a priority.

Safe Design and Durable Materials

The outer insulation of the cable is made of durable PVC, resistant to abrasion, kinking and external factors. Solid connectors - **CEE 7/7 (Schuko) plug** and **IEC C13 connector** - ensure a stable connection and protection against accidental disconnection. The cable is also equipped with grounding, which increases safety and protects equipment from damage due to power surges.

Reliable in Professional and Office Use

Akyga® AK-PC-05S is a product for users who value functionality, durability and safety. As an IEC C13 PC power cable, it is suitable for both everyday home use and professional environments - from offices to server rooms. It is a reliable component that will ensure uninterrupted and stable power supply to your devices.
