Desctription

The Akyga® AK-USB-58 angled USB-C cable is a great solution designed for convenience in spaces where room is limited. Its **short 30 cm length** makes it ideal for the car - no more tangled cables or unnecessary excess wiring. It is the perfect choice if you want to connect your smartphone to a car radio with a USB-A port. The short cable will ensure a stable connection to Android Auto or Apple CarPlay.

USB-C Angle Cable with Robust Braided Finish

The robust **braided design** effectively protects the cable from abrasion and mechanical damage. Not only does the braid increase durability, it also prevents the cable from tangling, which is crucial for everyday use - especially in the car where space is limited.

Ergonomic Angled USB Type C Connector

The cable is equipped with an **angled USB-C connector**, which makes it easy to connect devices in hard-to-reach places. This design ensures that the cable does not stand out and get in the way, for example while driving. This is a practical solution that minimises the risk of damage to the port and the cable itself.

Fast Charging and Reliable Data Transfer

The Akyga® AK-USB-58 **USB A to USB C cable** enables **fast charging with up to 60 W** for mobile devices such as smartphones, tablets or other electronic gadgets. In addition, the **USB 2.0 standard** ensures stable data transfer, allowing you to play music from your phone as well as transfer photos to your computer without any problems.

Compact USB Cable - Ideal for the Car

With its short length, robust braided cable and angled USB-C connector, the Akyga AK-USB-58 cable is the ideal choice for drivers and passengers. It will reliably perform during long journeys and everyday use, offering durability, functionality and convenience in a compact form.
