IMPULZOR

NO EFFORT,
JUST RESULTS.

Drilling experts – for generations

We are the only full-service provider in Europe for drilling tools from our own production and the leading manufacturer of metal, stone and wood drill bits. We are an Austrian family business and high quality has been our trademark for over 60 years.

Whatever is needed:

We supply the right drill bit to make your work more efficient, precise and optimal results can be achieved more quickly. In a word:

We ensure the perfect work result.

Robust. Shock-resistant. Efficient.

As drilling experts, we set new standards – and with our new IMPULZOR line we are going one step further!

The innovative, shock-resistant design makes them the perfect partner for today's powerful impact wrenches.

Maximum performance, highest precision and impressive longevity – that is what IMPULZOR stands for.

Our range provides craftsmen and DIY enthusiasts with exactly what they need: quality, variety and reliability for everyday use.

Discover innovation that moves – discover the IMPULZOR.

SHOCK-RESISTANT LIKE NO OTHER.

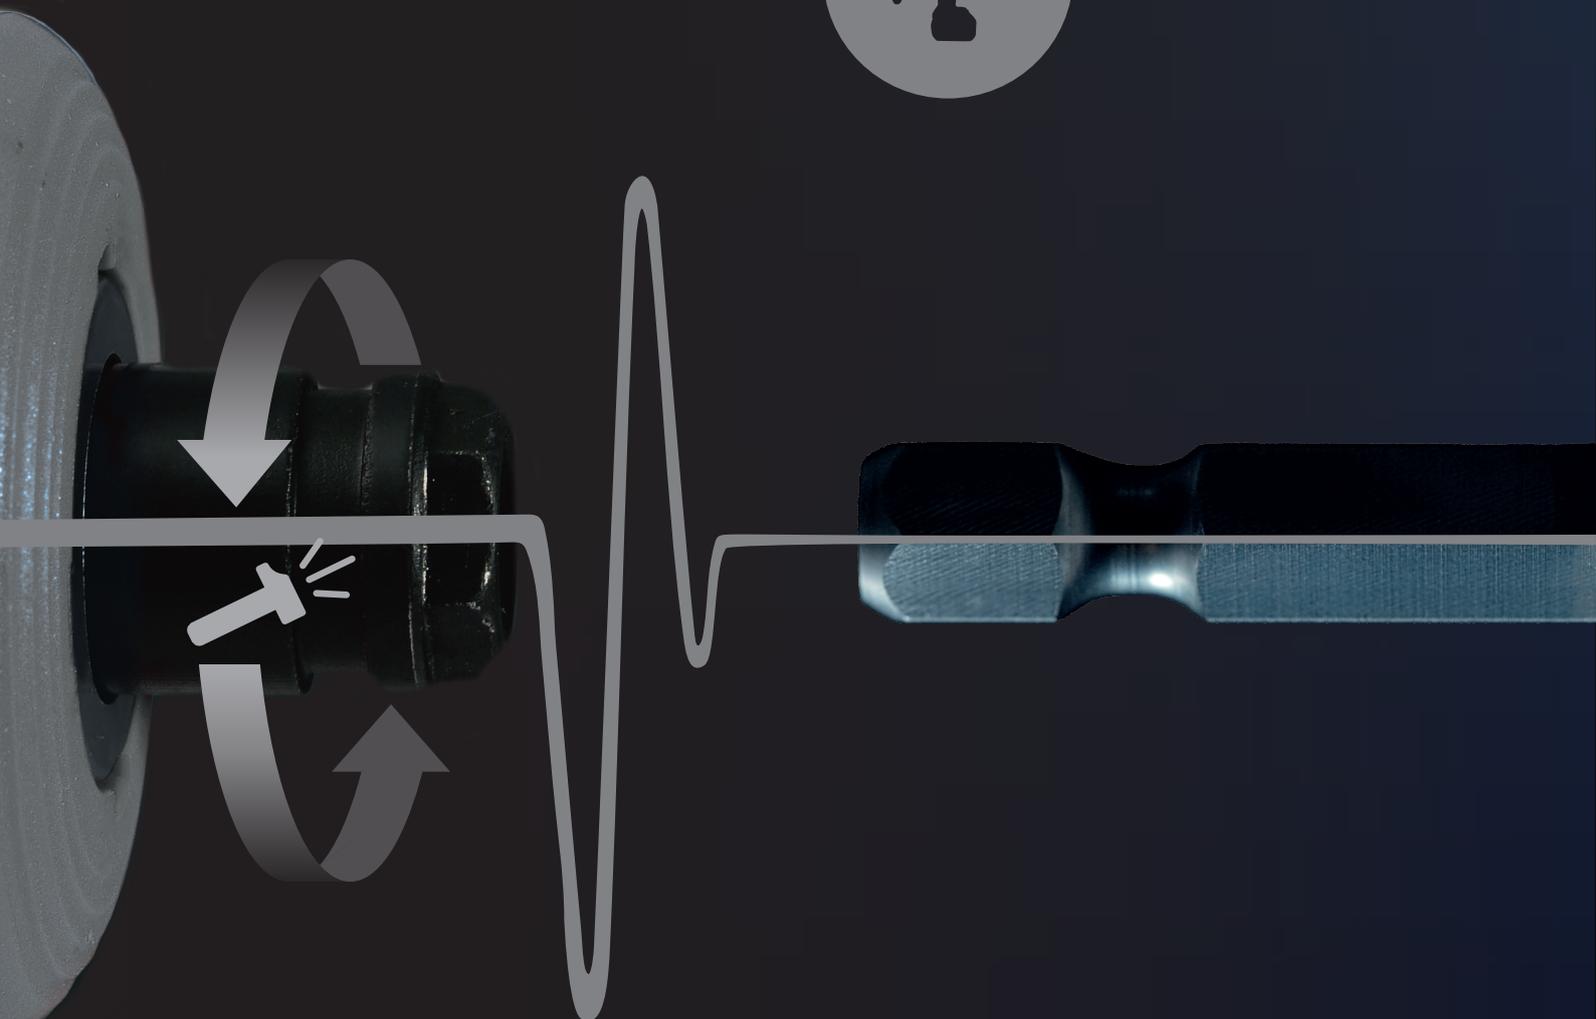

Shock-resistant, high-performance drill bits designed for maximum performance.

// Modern impact wrenches can generate enormous torques – traditional drills or bits quickly reach their limits. Our IMPULZOR tools were developed specifically for these requirements. Thanks to their extreme resilience, precise fit and workmanship, they are the first choice for anyone who works with impact wrenches.

Technology makes all the difference! A percussion mechanism inside the machine switches on when the resistance of the drilling or screwing process increases and triggers short, powerful pulses in a radial direction. This results in a higher torque than with a purely rotary movement. This is a tremendous advantage and makes work easier when loosening rusted screws or making deep holes.

Why special impact drills?

Rotation + impulse movement = efficiency at the highest level

OUR **IMPULZOR** MAKES THE DIFFERENCE.

A tool with an ambition!

Extreme challenges demand ingenious solutions! The IMPULZOR line guarantees ultimate break resistance – even under high torque and powerful impacts. An optimized hardening process not only boosts performance but also withstands torsion. Only then can a drill truly be called impact-resistant.

// 1/4" hex-shank

Fast tool changes: thanks to the standardized hex-shank.

Form-fitting: for a secure hold.

Efficient: through loss-free power transmission.

Universal: also suitable for classic 3-jaw chucks.

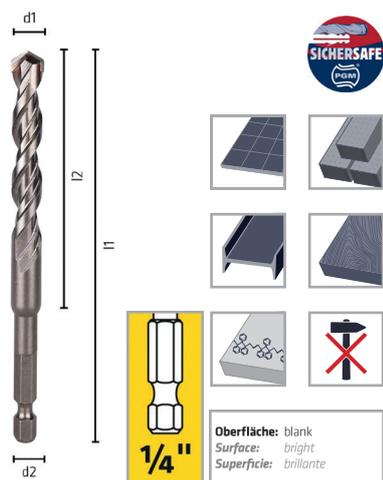

THE SMART ALL-ROUNDER

IMPULZOR UNI

// Assembly work requires flexibility – changing materials such as wood, metal, plastic or masonry are part of everyday life. The IMPULZOR UNI is designed for just that: one drill for everything, ideal for window installation or interior work, for example.

Thanks to its shock resistance, it is the perfect companion for assembly work with impact wrenches. No more annoying bit changes, no more machine downtime – Fast. Clean. Reliable. IMPULZOR UNI – for everyone who wants to save time and work efficiently.

10,00	120	66,5	1/4"	0058101000100	1	10

IMPULZOR UNI ATM 5-tlg.

IMPULZOR UNI Ø 3,00 / 4,00 / 5,00 / 6,00 / 8,00

IMPULZOR UNI

Areas of application:

- // Kitchen, furniture and shopfitting
- // Electrical and building services installations
- // Field repair and assembly teams
- // Interior fittings with combined materials (wood, plaster, metal)

Advantages:

- // Can be used for a wide variety of materials without changing tools
- // Perfect solution for assembly applications
- // Easy machine change thanks to compatible 1/4" hex-shank

Shock-resistant

Universal special drill bits

Diamond-cut, sharp cutting edges

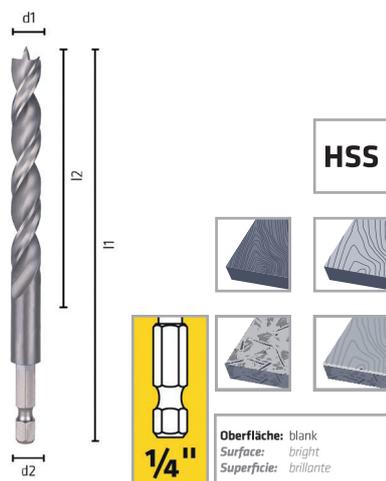

READY FOR ACTION FOR WOOD

IMPULZOR WOOD

// Whether hard, soft, knotty, resinous or completely flawless – wood is versatile. And that's exactly why we developed the IMPULZOR WOOD: for perfect drilling results with minimal effort – and all without putting strain on your wrists.

Especially in timber construction, the impact wrench is the tool of the professionals – this is where our IMPULZOR WOOD feels right at home. Maximum shock resistance, highest precision and lightning-fast machine changes thanks to the 1/4" hex-shank make it an indispensable partner for every wood construction site.

IMPULZOR WOOD ATM 5-tlg.

IMPULZOR WOOD Ø 3,00 / 4,00 / 5,00 / 6,00 / 8,00

IMPULZOR WOOD

Areas of application:

- // Timber frame construction (roof, wall, floor)
- // Interior design
- // Timber construction/carpentry
- // Assembly of furniture parts and wood joints
- // Deck construction, carports, pergolas

Advantages in the wood sector:

- // Effortless work even in hardwoods such as beech, oak or larch
- // Reduced recoil forces – noticeable relief for the wrist
- // Tear-free drill holes and lower contact pressure
- // Easy machine change thanks to compatible 1/4" hex-shank

Shock-resistant

Precise drilling

Drilling with considerably reduced contact pressure

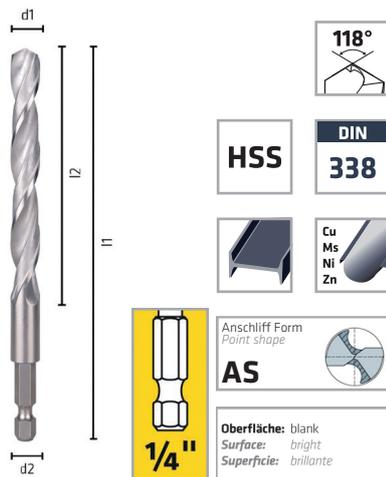

STEEL-HARD PERFORMANCE

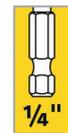

IMPULZOR METAL

// Whether beams, profiles, sheets or rails – every move counts on the construction site and in the workshop. This is exactly why we developed the IMPULZOR METAL: an shock-resistant twist drill bit for faster drilling progress and wrist-friendly work in metal.

Due to its high elasticity, precise point thinning and shock resistance, the IMPULZOR METAL is perfect for drilling in alloyed and unalloyed steels.

IMPULZOR METAL ATM 5-tlg.

IMPULZOR METAL Ø 3,00 / 4,00 / 5,00 / 6,00 / 8,00

IMPULZOR METAL

Areas of application:

- // Metal constructions in hall or plant construction
- // Fastening of profiles, rails or beams
- // Facade construction with profiled sheeting or sandwich panels
- // Mechanical and industrial plant engineering

Advantages in the metal sector:

- // No slipping on round surfaces due to the precise point thinning
- // Extremely break-resistant drill bit thanks to a special manufacturing process
- // Fast drilling progress and easy machine changes thanks to compatible 1/4" hex-shank

Shock-resistant

Elastic

Fast drilling progress
