Description

The **Akyga® AK-SC-E15 Type 2 Cable Wall Mount** is an invaluable accessory for electric car users. It will be especially appreciated by those who care about comfort and aesthetics of the space around the charging point. The holder is designed to hang cables with a Type 2 (IEC 62196-2) connector, which is the ideal solution for those wishing not only to organise the cable, but also to protect the plug from damage.

Practical Design

The AK-SC-E15 **Type 2 cable holder** has been designed with ease of use in mind. It features a dedicated **cable hook**, allowing for neat organization while eliminating the risk of tangling or accidental damage. By keeping the cable off the ground, it remains clean and free from dirt, ensuring a longer lifespan. What's more, the holder's design ensures that the plug is held firmly in place, protecting it from accidental drops or being run over by a vehicle.

Universal Installation - Adapts to Your Needs

Installation is quick and effortless, allowing the holder to be mounted anywhere – whether next to a home charger, in a garage, or on a parking lot wall. In just a few moments, you will have a practical and aesthetically pleasing solution that will increase the comfort of your daily use of your electric car.
