The Savio KB-03 wireless set is everything you need for comfortable and organized work at home or in the office. The full-size keyboard with a classic US layout offers quiet, smooth operation and comfort even during long hours of typing. The ergonomic mouse fits perfectly in your hand, and the adjustable sensitivity (up to 1200 DPI) allows you to tailor its performance to your preferences. Both devices connect to your computer via a USB receiver, providing a stable 2.4 GHz connection with no delays.The set operates on a Plug & Play basis, eliminating the need for complicated installation processes. Just insert the batteries (not included), plug it in and you're ready to go. KB-03 is compatible with the most popular operating systems and ready to keep up with you every day.
