Desctription

The Akyga® AK-RD-01C power cable is a high-quality cable with a **length of 1.5 m**. It has been created to supply power to devices with lower energy requirements (max. 2.5 A). Moreover, the AK-RD-01C power cable is **made of copper**, which guarantees a stable and efficient power supply.

The power cable has been terminated with an **IEC C7 connector**, which is also known as a **figure eight** due to its characteristic shape. It can be found in many devices such as radios, laptop power supplies, DVD players or consumer electronics.

On the other hand, the power cable has a **CEE 7/16 plug**, often referred to as a Europlug. This is a standard connector designed to work with European standard power sockets, offering a safe and secure connection.
